ClarityBlu®
Project Management Solutions

Who are ClarityBlu?

Established in 2016, ClarityBlu is a different kind of Project Management support partner. We are on a mission to shake up the Project Management space with our relentless delivery mindset built upon foundations of process, integrity and doing the right thing.

ClarityBlu are a trusted and reliable one-stop-shop for interim Project Management support, consultancy or advice. We like to keep things simple:

1. Do an amazing job.
2. Make life as straightforward and comfortable as possible for our clients.

Our offerings – Interim Support.

We offer experienced, qualified and passionate Project and Programme Management expertise directly into your new or existing projects.

We will work with clients to provide full end-to-end project support, join in part way through to bolster an existing team or provide interim coverage for things like maternity cover or to act as a stopgap whilst internal recruitment processes are taking place.

Our offerings – Consultancy.

"How do I know if I have Project Delivery Issues?" Well the simple answer is you almost certainly do...

Whether it be significant problems that make you feel like everything is broken or perhaps just some small niggles, the likelihood is that with the appropriate analysis you would be able to identify improvements to your working practices and therefore optimise your output.

Our offerings – Training and mentoring.

Everyone, at all levels, can benefit from training and mentoring. Investing in the skills of your Project Management team is a great way to improve output, but it can also really help with employee engagement, increased job satisfaction and employee retention. We are experts in building passionate, fun and relentless delivery focussed teams and are desperate to help you create this 'pixie dust'!

What's in it for you?

Businesses generally seek additional support when the required expertise is unavailable internally or if that expertise is busy with other things.

- **Time.** It's far quicker to find an interim resource than a permanent option. And it's far quicker, safer and more reliable to use ClarityBlu interim option than to find one yourself!
- **Flexibility.** If future needs seem uncertain then utilising a temporary resource makes sense right..?
- **Simplicity.** Minimal Management overhead
- **Specialism & fresh insight.** Sometimes you just benefit from someone with a new perspective!

Okay but why us?

- ClarityBlu only provide passionate, knowledgeable, honest and driven project professionals, directly aligned with supporting our clients needs
- All interim support activities are closely tracked and assisted by ClarityBlu leadership, meaning we are on hand to ensure successful outcomes for our clients
- No upfront fees, fully flexible and competitively priced
- **FREE:** In addition to our regular ongoing support, ClarityBlu leadership also offer 1 day/month for dedicated project involvement and/or consultancy. This ensures we remain close to our clients, their projects and their internal processes

Let's chat...

If this sounds like something you would like to explore or if you have any questions, then please just reach out!
